Undercounter Refrigerators and Freezers
Laboratory/Pharmacy | Blood Bank

TrueBlue.
Reliability & Support
Medical-grade refrigerators and freezers designed specifically for healthcare and life science applications.

Helmer Scientific high-performance undercounter refrigerators and freezers are a result of over 37 years of proven refrigeration solutions and attention to detail. Superior temperature uniformity, outstanding reliability, and exceptional benefits bring value every day, leaving you free to focus on your critical work while your products receive our TrueBlue protection.

Helmer Refrigerators & Freezers Deliver

High-Quality Craftsmanship
- Superior chamber temperature uniformity and quick recovery with heavy-duty, air-cooled refrigeration system
- Temperature uniformity of +/- 1°C (refrigerators)
- Programmable defrost (freezers)
- Bacteria-resistant powder coated exterior and interior provide added security
- Sure-Seal self-closing door eliminates broken door latches
- Undercounter, free-standing, or stacked
- Sustainable, U.S. EPA and SNAP approved Ecomate® insulation
- Hospital grade plug enhances electrical safety/serviceability

Secure Monitoring for a Safe Storage Environment
- i.C³ with 7” (177mm) full-color touchscreen (i.Series®)
- Microprocessor temperature controller with built-in alarm/monitor (Horizon Series™)
- Key lock or optional access control
- Password protected settings (i.Series)
- Chart recorder (blood bank refrigerators and plasma freezers)

Designed for Convenience & Performance
- Field-reversible door (swing contained within width dimension)
- Front ventilation eliminates the need for top or side clearance
- Drop-down access panel conceals power switch, battery, and alarms*
- Front serviceability
- Rechargeable i.C³ battery backup (i.Series)
- ADA compatible models fit under 34” (864mm) ADA compliant counters

* i.Series / Horizon Series
Product Line Overview

Helmer offers three distinct lines for undercounter refrigerators and two lines for undercounter freezers. All lines offer high quality construction and attention to detail throughout. The primary difference between lines is the means of monitoring and control.

i.Series®

The i.Series features the i.C3, a door-mounted, touchscreen information center with constant temperature monitoring and control. It is easy to view and provides status of critical information, alarms, and events in one secure location.

Horizon Series™

The Horizon Series offers a door-mounted digital microprocessor temperature controller with a built-in alarm.

Scientific Series™

The Scientific Series includes a digital microprocessor temperature controller.

Outstanding features
at-a-glance

Refrigeration System
» Heavy-duty, air-cooled refrigeration system with non-CFC refrigerant provides high efficiency and is environmentally friendly R134A (ref) / R404A (frz)
» Forced-air circulation maintains chamber uniformity and provides quick recovery after door openings
» No defrost cycle required to maintain constant temperature
» Auto condensate evaporation
» Evaporator fan(s) shut off during door openings to maintain stable temperatures
» Programmable electric defrost. Defrost can be programmed to actual time desired, allowing cycles to run automatically during low use periods. (freezer)

Cabinet Construction
» Bacteria-resistant powder coated interior and exterior
» Sure-Seal self-closing, field reversible door
» Key lock
» Front ventilation
» Front and side access panels
» Minimum of 2” (51mm) Ecomate® environmentally friendly and GRAS approved foam insulation
» Leveling feet
» Recessed floor contains spills for easy clean-up
» Hospital grade plug and cord
» Rear access port
» All units stackable

Storage
Laboratory/Pharmacy Models
» Adjustable shelves
» Side and rear guards prevent items from falling off
» Stainless steel standards guard against rust and corrosion

Blood Bank/Plasma Models
» Solid stainless steel pull out drawers
» Sure-Grip coordinated drawer handles with built-in ledge for labels (i.Series blood bank refrigerator)
» Durable, liquid-tight construction for containment of spills
» Stainless steel drawer standards and fully extendable drawer slides guard against rust and corrosion and provide easy access to inventory (refrigerator)
» Easy-Glide stainless steel drawer slides and standards for smooth operation at low temperatures (freezer)
» Tube-Guard drawer shields minimize the risk of tube damage

Chart Recorder
Blood Bank Refrigerators and Plasma Freezers include a 4” (102mm) chart recorder with 7-day circular charts
- Inkless, pressure-sensitive chart paper
- Battery backup
- Touch button controls for chart changes and calibration

Temperature Control and Monitoring

### i.Series Refrigerators & Freezers

- **Alarm/Monitor**
  - Exclusive i.C3 Information Center
    - 7" (177mm) full-color, door-mounted touchscreen
    - Automatic high/low alarm testing (Peltier based)
    - USB ports (2) for download/upload/update
    - Optional RS232 data port
    - Dry contact alarm connection
    - Password protected settings
    - Alarm probe (stainless steel in product simulation bottle)
    - Digital temperature display / °C or °F
    - Event log displays date, time, and temperature data
    - Compressor log displays compressor temperature performance
    - Defrost log (freezers)
    - Defrost cycle alert (freezers)
    - Interactive temperature graph
    - Min/max display and reset
    - Digital calibration
    - Rechargeable battery backup
    - Date and time display
    - Alarm mute with adjustable ring-back interval
    - Adjustable alarm volume
    - Four alarm tones
    - High and low temperature alarms
    - Door ajar alarm
    - Power failure alarm
    - Condenser temperature alarm
    - Ethernet

### Horizon Series Refrigerators & Freezers

- **Alarm/Monitor**
  - Microprocessor temperature controller with alarm/monitor
    - LED digital display
    - Manual alarm test
    - Dry contact alarm connection
    - Alarm probe (stainless steel in product simulation bottle)
    - LED temperature display / °C or °F
    - Min/max display and reset
    - Digital calibration
    - Battery backup
    - Alarm mute with 5 minute ring-back interval
    - Alarm silence with key switch
    - High and low temperature alarms
    - Door ajar alarm
    - Power failure alarm

### Scientific Series Refrigerators

- **Controller**
  - Microprocessor temperature controller
    - LED digital display
    - LED temperature display / °C or °F
  - Ethernet

---

**Configurability**

A number of high-performance options and accessories are available for undercounter refrigerators and freezers. Storage can be customized with various combinations of shelves, roll-out baskets, pull-out drawers, or locking drawers. Save space with the ability to stack two units. See back cover for a complete list of options and accessories.
i.C³ Information Center

The i.C³ Information Center provides constant temperature monitoring and multiple information logs while offering security features to keep settings safe. It consolidates the refrigerator or freezer information in one convenient location and allows the user to optimize performance with just a fingerstroke. The icon driven monitoring system features a door mounted 7” (177mm) full-color touchscreen ergonomically angled for easy viewing.

The i.C³ Information Center includes:

System Status Console
Snapshot of current conditions
Monitor the status of the unit with one quick glance at the home screen.

Status Available
- Current temperature
- Current alarm conditions and alerts in progress
- Unacknowledged alarms
- Minimum and maximum temperatures
- Historical temperature data

Information and Event Center
Performance history
All the information you need is one touch away. The interactive temperature graph provides a visual history of performance and a shortcut to the event log with detailed status information. Event acknowledgement can be captured on-screen complete with signature, date, and time-stamp.
- Event status, start and end times
- Door opening status
- Min/Max temps during alarm conditions
- 7 and 1-day graph view

Guardian Plus Protection
Protect settings and limit access
Password protected setpoints ensure that proper temperatures are maintained, keeping products secure. With the addition of Optional Integrated Access Control, access to the refrigerator or freezer can be secured by an electromagnetic lock controlled by PIN entry.
- 100 User IDs can be set up directly from the i.C³ and programmed with an individual access PIN
- Access Control keypad can be set as an alternative Home Screen
- Access Control log provides an audit trail of door entries and includes the User ID, Date, Time, Duration, and Method of Entry
- Key override

Data Transfer Center
Export data with ease
Temperature, event, and optional access control data is simply exported via the USB port in the side of the i.C³ Information Center and can be opened in a spreadsheet program. Firmware updates can also be uploaded.

Meets AABB, ARC, and FDA standards for blood storage. Specifications subject to change
Certified to applicable UL and CSA standards by a NRTL. Published interior volumes are nominal; usable cu ft (liters) capacity may be offset by protrusions into cabinet.
Technical Data Sheets for all Undercounter Refrigerators and Freezers are available at www.helmerinc.com

* Capacity based on blood bag volume of 450ml
** Includes leveling feet. Does not include door handle or optional casters.

### Warranty

- **Reli.** 7 years compressor | 2 years parts | 1 year labor at Helmer
- **Rel.i** 5 years compressor | 2 years parts | 1 year labor at Helmer
- **Standard** 3 years compressor | 2 years parts | 1 year labor at Helmer

Warranties applicable in the U.S. and Canada. For international warranty information, contact your local distributor.
High-Performance Options & Accessories

Options and accessories have been specifically designed to enhance the performance of Helmer Scientific refrigerators and freezers. Some options are factory installed and must be specified with your original order. Please contact your sales representative for more information.

Roll-out Baskets
Epoxy-coated, wire baskets with fully extendable slides are offered as an alternative to standard wire shelving.

Shelves
Additional shelves for refrigerators and freezers are adjustable, and designed to fit individual cabinets.

Pull-out Drawers
Stainless steel drawers are liquid-tight. Drawers are standard on blood bank/plasma models.

Locking Drawers
Optional stainless steel locking drawer includes cover and key lock for secure closure.

Glass Doors
Solid doors are offered standard. Optional dual-pane glass doors are available for undercounter Perforateer refrigerators.

Integrated Electromagnetic Access Control - i.Series®
Integrated electromagnetic access control offers secure access to the refrigerator or freezer via the i.C3 Information Center. An electromagnetic lock is integrated into the unit and controlled by PIN entry.

- Up to 100 User IDs can be set up directly from the i.C3 and programmed with an individual access PIN
- The Access Control display can be set as an alternative Home Screen.
- Access Control log provides audit trail of door entries and can be downloaded
- Key override is included

Integrated Electromagnetic Access Control - Horizon Series™
The Horizon access control keypad provides fail-safe digital keypad access. A lock is integrated into the unit and unlocked by entering a user code on the keypad.

- Up to 100 User Codes can be entered into the keypad
- Key override included

Temperature Chart Recorders
Optional 4" (102mm) chart, 7-day, inkless standalone temperature recorder. Includes battery backup and box of 52 charts. Recorders are standard on blood bank models.

- Reorder Chart Recorder Paper
  4" (102mm) diameter, -5°C to +20°C, package of 52 (ref)
  4" (102mm) diameter, -50°C to 0°C, package of 52 (frz)

Remote Alarms
For audible and visual signal of an alarm condition. Extend existing alarms to remote locations within a facility. Operational up to 3000’ (914m) from cabinet. Can be connected to a central alarm system.

Remote Lock Adapter Kits
Special accessories that allow medication dispensing locks to be properly installed on Helmer Scientific refrigerators and freezers. Compatible with most systems.

Drawer Dividers
Polycarbonate upright or angled dividers for use in pull-out drawers.

Storage Trays
Package includes tray, dividers, and rails to simplify and organize storage areas.

Casters
Stainless steel interior and/or exterior

Interior LED light with on/off switch (refrigerators only)

Floor and Wall Bracket Kit

Stacking Kit
