Upright Refrigerators
Blood Bank

TrueBlue.
Reliability & Support
Medical-grade refrigerators designed specifically for blood bank applications.

Helmer high-performance blood bank refrigerators are a result of over 37 years of proven refrigeration solutions and attention to detail. Superior temperature uniformity, outstanding reliability, and exceptional benefits bring value every day, leaving you free to focus on your critical work while your products receive our TrueBlue protection.

Helmer Refrigerators Deliver

High-Quality Craftsmanship
- Superior chamber temperature uniformity and quick recovery with heavy-duty, air-cooled refrigeration system
- Temperature uniformity of +/- 1°C
- Bacteria-resistant powder coated exterior and interior provide added security
- Sure-Seal self-closing door with magnetic closure eliminates broken door latches
- No defrost cycle required so constant temperatures are maintained throughout the storage period
- Adjustable LED lighting provides energy-efficient illumination with auto-on feature and ON/OFF switch
- Hospital grade plug enhances electrical safety/serviceability

Secure Monitoring for a Safe Storage Environment
- i.C³ with 7” (177mm) full-color touchscreen (i.Series®)
- Microprocessor temperature controller with built-in alarm/monitor (Horizon Series™)
- Key lock and optional access control
- Password protected settings (i.Series)
- Chart recorder

Designed for Convenience & Performance
- Single and double door models from 11 cf (326 L) to 56 cf (1586 L)
- ADA compliant full-length door handle(s)
- Position flush with a countertop, cabinet, or other equipment with no additional clearance required
- Recessed floor and liquid-tight drawers contain spills for easy clean-up and maintain the integrity of other products stored in the refrigerator
- Rechargeable i.C³ battery backup (i.Series)
More choices

Product Line Overview
Helmer offers two distinct lines for upright blood bank refrigerators. All lines offer high quality construction and attention to detail throughout. The primary difference between lines is the means of monitoring and control.

i.Series®

The i.Series features the i.C³, a door-mounted, touchscreen information center with constant temperature monitoring and control. It is easy to view and provides status of critical information, alarms, and events in one secure location.

Horizon Series™

The Horizon Series offers a digital microprocessor temperature controller with a built-in alarm.

800.743.5637 3
Outstanding features

Refrigeration System

» Heavy-duty, air-cooled refrigeration system with non-CFC R134A refrigerant provides high efficiency and is environmentally friendly
» Forced-air circulation maintains chamber uniformity of ±1°C and provides quick recovery after door openings
» No defrost cycle required to maintain constant temperature
» Auto condensate evaporation
» Evaporator fan(s) shut off during door openings to maintain stable temperatures

Cabinet Construction

» Bacteria-resistant powder coated interior, exterior, and door handle(s)
» Ergonomic Sure-Grip door handle is padded for comfort
» Superior engineered frame for maximum rigidity
» Dual-pane glass door(s) with ADA compliant full-length handle
» Sure-Seal self-closing door with magnetic closure
» Key lock
» LED lighting with control panel mounted switch
  - Auto ON/OFF
» Minimum of 2” (51mm) non-CFC foamed urethane insulation
» Swivel locking casters
» Access port located in top of cabinet for external monitoring probe(s)
» Recessed floor contains spills for easy clean-up
» Hospital grade plug and cord

Storage

» Solid stainless steel pull-out drawers
» Sure-Grip coordinated drawer handles with built-in ledge for labels
» Durable, liquid-tight construction for containment of spills
» Stainless steel drawer standards guard against rust and corrosion
» Easy access to inventory with fully extendable drawer slides
» Scratch-Guard edge protectors keep glass doors from being scratched by drawers
» Tube-Guard drawer shields minimize the risk of tube damage

Chart Recorder

4” (102mm) chart recorder with 7-day circular charts
- Inkless, pressure-sensitive chart paper (-5°C to +20°C)
- Battery backup
- Touch button controls for chart changes and calibration

Automatic high and low alarm tests heat and cool probes at the touch of a button, safely testing probes without affecting chamber temperature, while saving valuable time.

1 i.Series models
Temperature Control and Monitoring

### i.Series®

**Exclusive i.C® Information Center**
- 7” (177mm) full-color, door-mounted touchscreen
- Automatic high/low alarm testing (Peltier based)
- USB ports (2) for download/upload/update
- Optional RS232 data port
- Dry contact alarm connection
- Password protected settings
- Dual alarm probes (stainless steel in product simulation bottle)¹
- Digital temperature display of upper and lower chambers², °C or °F
- Event log displays date, time, and temperature data
- Compressor log displays compressor temperature performance
- Interactive temperature graph
- Min/max available via download
- Digital calibration
- Rechargeable battery backup
- Date and time display
- Alarm mute with adjustable ring-back interval
- Adjustable alarm volume
- Four alarm tones
- High and low temperature alarms
- Door ajar alarm
- Power failure alarm
- Condenser temperature alarm
- RJ45 hub²

### Horizon Series™

**Microprocessor temperature controller with alarm/monitor**
- LED digital display, top bezel mounted
- Manual alarm test
- Dry contact alarm connection
- Alarm probe (stainless steel in product simulation bottle)
- LED temperature display / °C or °F
- Min/max display and reset
- Digital calibration
- Battery backup
- Alarm mute with 5 minute ring-back interval
- Alarm silence with key switch
- High and low temperature alarms
- Door ajar alarm
- Power failure alarm

¹ 11 cu ft (326 liter) models: single alarm probe and upper temperature display
² For special applications

### Configurability

A number of high-performance options and accessories are available for blood bank refrigerators. Storage can be customized with various combinations of shelves, roll-out baskets, pull-out drawers, or locking drawers. Configured options include heated glass doors which reduce condensation. Drawer dividers are also available to organize blood bags. See page 7 for a complete list of options and accessories.
i.C³ Information Center

The i.C³ Information Center provides constant temperature monitoring and multiple information logs while offering security features to keep settings safe. It consolidates the refrigerator information in one convenient location and allows the user to optimize performance with just a fingerstroke. The icon driven monitoring system features a door mounted 7” (177mm) full-color touchscreen ergonomically angled for easy viewing.

The i.C³ Information Center includes:

**System Status Console**
*Snapshot of current conditions*
Monitor the status of the unit with one quick glance at the home screen.

- Status Available
  - Current temperature
  - Current alarm conditions
  - Any alerts in progress
  - Unacknowledged alarms
  - Historical temperature data

**Information and Event Center**
*Performance history*
All the information you need is one touch away. The interactive temperature graph provides a visual history of performance and a shortcut to the event log with detailed status information. Event acknowledgement can be captured on-screen complete with signature, date, and time-stamp.

- Event status, start and end times
- Door opening status
- Min/Max temps during alarm conditions
- 7 and 1-day graph view

**Guardian Plus Protection**
*Protect settings and limit access*
Password protected setpoints ensure that proper temperatures are maintained, keeping products secure. With the addition of Optional Integrated Access Control, access to the refrigerator can be secured by an electromagnetic lock controlled by PIN entry.

- 100 User IDs can be set up directly from the i.C³ and programmed with an individual access PIN
- Access Control keypad can be set as an alternative Home Screen
- Access Control log provides an audit trail of door entries and includes the User ID, Date, Time, Duration, and Method of Entry
- Key override

**Data Transfer Center**
*Export data with ease*
Temperature, event, and optional access control data is simply exported via the USB port in the side of the i.C³ Information Center and can be opened in a spreadsheet program. Firmware updates can also be uploaded.
Options and accessories have been specifically designed to enhance the performance of Helmer Scientific refrigerators. Some options are factory installed and must be specified with your original order. Please contact your sales representative for more information.

**Pull-out Drawer**
Stainless steel, liquid-tight drawer with slides. i.Series and Horizon Series available. Specify when ordering.

**Roll-out Baskets**
Epoxy-coated, wire baskets with fully extendable slides are offered as an alternative to standard wire shelving.

**Wire Shelves**
Epoxy-coated wire shelves are adjustable, and designed to fit individual cabinets.

**Locking Drawers**
Optional stainless steel locking drawer includes cover and key lock for secure closure.

**Heated Glass Doors**
Removes fogging and condensation in humid environments.

**Integrated Electromagnetic Access Control**

i.Series®
Integrated electromagnetic access control offers secure access to the refrigerator via the i.C® Information Center. An electromagnetic lock is integrated into the unit and controlled by PIN entry.

» Up to 100 User IDs can be set up directly from the i.C® and programmed with an individual access PIN
» The Access Control display can be set as an alternative Home Screen.
» Access Control log provides audit trail of door entries and can be downloaded
» Key override is included

Horizon Series™
The Horizon access control keypad provides fail-secure digital keypad access. A lock is integrated into the unit and unlocked by entering a user code on the keypad.

» Up to 100 User Codes can by entered into the keypad
» Key override included

**Chart Recorder Paper**
4” (102mm) diameter, -5°C to +20°C, package of 52

**Remote Alarms**
For audible and visual signal of an alarm condition. Extend existing alarms to remote locations within a facility. Operational up to 3000’ (914m) from cabinet. Can be connected to a central alarm system.

**Remote Lock Adapter Kits**
Special accessories that allow medication dispensing locks to be properly installed on Helmer Scientific refrigerators and freezers. Compatible with most systems.

**Drawer Dividers**
Polycarbonate upright or angled dividers for use in pull-out drawers. Excellent for blood bags and automated medication dispensing systems.

**Storage Trays**
Package includes tray, dividers, and rails to simplify and organize storage areas.

**Leveling feet**
Field-installable kit used to provide a level, stable base for refrigerator. Can be installed without tipping unit.

**Left-hinged single door**
Stainless steel interior

**Chart Recorder Deduction**

**Floor and Wall Bracket Kit**

**IQ/OQ Equipment Validation Guide**

**Temperature Validation**

**Certificate of Calibration**

**USB Flashdrive**
