

Door Handles and Adapters

for Omnicell® FlexLock

Helmer Scientific MedLock Solutions

Special accessories are available for facilities that install the Omnicell FlexLock on Helmer upright refrigerators, undercounter refrigerators, and undercounter freezers.

FlexLock Compatible Door Handles for Upright Models

The door handle features a cutout and spacer which enable the FlexLock to wrap around the front and side of the door.

- Available for single door upright refrigerators 11, 13, 20, and 25 cu ft (326, 377, 572, and 714 L)
- Compatible with glass and solid doors
- Factory or field installation

FlexLock Adapter Kit Undercounter Models

The adapter kit includes an extension bar that mounts to the door of the unit, allowing the FlexLock to be properly installed.

- Adapter kits available for undercounter refrigerators and freezers (5 cu ft / 150 L)
- Compatible with glass and solid doors; powder coated and stainless steel exteriors
- Factory installed or field installation kits available
